

Perfect flowers

What our newlyneds say...

Kayla said... "My husband and I got married about 3 hours away from where we live so it was a little bit of an adventure to find a florist. However, when we found Shelley, she was super supportive, kind and flexible which made working with her so easy. She really put my vision to life and many of my guests complimented me on how gorgeous the flower arrangements were. I would recommend Shelley's Flowers to anyone getting married in Maine."

Lesley said... "Shelley was amazing to work with! She was very responsive over email which really helped to put me at ease since planning a destination wedding isn't always the easiest. She also worked with our small budget to make sure that we could have everything we wanted without going over. The flowers were absolutely beautiful. I would recommend Shelley to anyone. She's fun to work with, makes beautiful arrangements, and is respectful of whatever budget you have to work with."

Shaina said... "Shelley recently did the flowers for my wedding and I was so incredibly happy with how it turned out! She understood our vision from the beginning and definitely made it come true. She was very responsive over email and was happy to tweak things along the way. She was a pleasure to work with, and I don't think we would have been able to do it at her prices with anyone else. Highly recommended!"

Kim said... "We love Shelley's...we had so much fun planning with them... they were accommodating in every area...our time, our budget or questions and concerns...always happy to see us...they exude small town comfort with big time professionalism and amazing quality and artistry in their final product...we recommend their services without reserve."

Sam & Alan said... "The wedding turned out great! Everything really fell into place and turned out beautiful. Thank you for making beautiful arrangements. My sister keeps saying that it's the best wedding that she's been to."

Sara said... "Shelley and her team are absolutely amazing! I shared my Pinterest board and Shelley really made our design ideas come to life. She was prepared for all our meetings (initial, 4 and 2 week prior checkpoint, day before inspection). Her team provided on-time delivery and set-up everything at the venue. Shelley went above and beyond...[and] literally saved our wedding day from a décor perspective. She brought items from her shop and really saved our decorating style when another vendor was a no-show...Shelley is amazing. She takes away all the worry away and lets you enjoy the day!"
